

Need **LEED** certification? We'll provide the paperwork.

The following summary provides an overview of the LEED categories in which ESKY can contribute.

LEED CATEGORY

Materials and Resources Credits 4.1 and 4.2:
10%-20% Recycled Content

LEED CREDITS AVAILABLE

1 Point per Credit Category

E-SKYLIGHT.COM CONTRIBUTION

Glass: We insist on working with manufacturers who provide glass consisting of 20-25% recycled content.

Aluminum: Our aluminum contains in excess of 35% recycled content which also exceed LEED requirements.

*Margaret Chase Elementary
School*

E-Skylight.com contributes further to the entire recycling stream by reclaiming 100% of the aluminum waste (including shavings) generated in our manufacturing process.

LEED CATEGORY

Indoor Environmental Quality Credit 4.1: Low-Emitting Materials: Adhesives & Sealants

LEED CREDITS AVAILABLE

1 Point

E-SKYLIGHT CONTRIBUTION

The adhesives and sealants used in glass structures are critical to structural and environmental performance. We source only products that are significantly below the V.O.C. requirements

LEED CATEGORY

Indoor Environmental Quality Credits 8.1: Daylight & Views: Daylight in Over 75% of Spaces

LEED CREDITS AVAILABLE

1 Point per Credit Category

E-SKYLIGHT.COM CONTRIBUTION

Take maximum advantage of daylighting opportunities to decrease requirements for artificial lighting, while helping to manage heating and cooling costs.

LEED CATEGORY

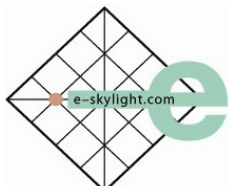

Materials and Resources Credits 5.1 and 5.2: Regional Materials: 10%-20% Processed & Manufactured Regionally

LEED CREDITS AVAILABLE

1-2 Points

E-SKYLIGHT CONTRIBUTION

Credits are available when the E-Skylight.com is within 500 miles of the jobsite.
